“today, over 20 years of shipbuilding experience has primed RATSON to venture worldwide”

“berbekal lebih dari 20 tahun pengalaman, RATSON kini siap untuk merentangkan sayapnya di dunia internasional”

Our Shipyard

In the year 2000, our shipyard was first built on a 5 acres piece of land in Samarinda, East Kalimantan. Since then, we have consistently performed to high standards of excellence in designing, building and repairing vessels, and expanded into a vast 25 acres area of successful shipbuilding facility with an annual capacity of 20 vessels and a maintenance slipway in Batam.

Galangan Kapal Ratson didirikan tahun 2000 di Samarinda, Kalimantan Timur dan saat ini telah mampu memproduksi 20 kapal setiap tahun serta memiliki fasilitas pemeliharaan kapal di Batam.

Why Ratson?

- + Prompt Delivery
- + Competitive Price
- + Structural Sturdiness
- + Professional Naval Architects

Mengapa Ratson?

- Ketepatan Pengiriman
- Harga Kompetitif
- Kekokohan Struktur
- Arsitek Kelautan Profesional

Our Standard

All our ships comply with the national standard of BKI (Indonesian Bureau of Classification) and IACS Class Standard such as :

- BV Class, ABS Class, and GL Class.
- Dalam konstruksi setiap kapal, kami menerapkan standard BKI dan IACS.
